

## Comments on Advanced Legal Research Survey (Fall 2006)

- This was the most useful course I've taken in law school. It builds on LRW skills and cultivates new skills, without the pressured environment of LRW.
- I liked the conversational, "group discussion" feel where we learned from other students as well as the person up front.
- All the guest speakers were informative and interesting!
- I liked learning about all sorts of new and free avenues of research.
- The course gave us a rare opportunity to focus on legal research.
- I highly recommend this course and this professor.
- I learned very useful information! The skills I developed will be helpful in my future career.
